Grammage	85 gsm
Caliper (thickness)	72 microns

Adhesive
A general-purpose removable rubber based adhesive, which can also be used in certain cases as a deep freeze adhesive

Minimum application temperature.	-10°C
Range once applied	-30°C to +70°C

Backing
A bleached kraft paper with good lay-flatness & stability

Grammage	85 gsm
Thickness	82 microns

Environmental
Paper components are either ECF or TCF grade manufactured using pulp from sustainable, managed resources. All dimensions are nominal target specifications but may vary. All products within our range are manufactured to ISO 9001:2015 and BRC standards, the factory is also PEFC and FSC certified. The raw material laminates are also made to the same ISO standards as above and to ISO 14001.

Markets and Uses
A Good quality finish not as high as the Gloss white but ideal for branding and promotional labels where the full Gloss is considered to be too high end and where the label will need to be removed. This material will lift a logo, etc which would appear flat on a standard matt material. Ideal for gifts, marketing literature, bottles and jars.
