A4 STOCK SPECIALITY SPEC SHEET
MULTIPURPOSE (LASER/COPIER PRODUCTS)

Silver Void Polyester (SVP)

A Silver Polyester especially designed for security labelling of added value goods or to be used as a seal for added value goods packaging. Once applied, any attempt to remove one of our void labels will result in the word "Void" being revealed on the item surface and any attempt to re-stick the label can never overcome the visual effect of the first removal.

The material was also specifically designed for use on mono and colour 'hot fuse' printer systems. Some slight curl may occur on exiting the printer, but this will flatten quickly. This material is primarily used in window signs and displays. Due to the print pre-treatment, along with outstanding laser printing performance, the film is printable by other common label printing methods like letterpress, flexography, screen and offset. (Use quick dry oxidising inks).

Face material properties

Calliper (thickness)	60 microns + or – 3 microns.
Grammage:	75g/m2

Adhesive

A special formulation of Acrylic adhesive. The adhesive will increase its performance over a 24-28 hour timeframe. The "Void" text will reveal on almost all surfaces after a relatively short period of time, but this does vary depending on the surface to be stuck to and the pressure used in application. If in doubt, please test before ordering.

Minimum application temp.	+5°C
In-use range once applied	-30°C to +80°C

Backing

Kraft backing paper, matt-coated on reverse side with good lay-flatness & stability

Thickness	168 microns + or – 8 microns
Grammage	140 gsm + or – 7 gsm

Environmental

Paper components are either ECF or TCF grade manufactured using pulp from sustainable, managed resources. All dimensions are nominal target specifications but may vary. All products within our range are manufactured to ISO 9001:2015 and BRC standards, the factory is also PEFC and FSC certified. The raw material laminates are also made to the same ISO standards as above and to ISO 14001.

Markets and Uses

Tamper evident material that leaves the word "Void" in silver on the product/package if the label is removed. This is great for seals on high value products such as mobile phones, electronic gadgets, sim cards etc. Once the label is tampered with the material leaves the image on the packaging.

Electronics, Mobile Phone, High Value products
