A4 STOCK SPECIALITY SPEC SHEET

MULTIPURPOSE (LASER/COPIER PRODUCTS)

Ultra Destructible (UD)

A Special White Semi-Gloss PVC (Vinyl) film designed to be extremely fragile in its nature so that it will break when put under any tear stress. In practise this means that once applied, any attempt to remove it will result in no more than a frustrating mess of little bits coming away slowly. With its special purpose adhesive, the material was designed for the labelling of goods etc where it is very important that the label be difficult to remove or that some evidence will be apparent if even an attempt at removal is made. Always test for suitability to your requirement. *****
This product is not recommended with a back slit

The material was also specifically designed for use on mono and colour 'hot fuse' printer systems. Some slight curl may occur on exiting the printer, but this will flatten quickly. Due to the print pre-treatment, along with outstanding laser printing performance, the film is printable by other common label printing methods like letterpress, flexography, screen and offset. (Use quick dry oxidising inks).

Face material properties

Caliper (thickness)	70 microns + or – 3 microns.
Grammage:	135g/m2

Adhesive
A special formulation of acrylic adhesive.

Minimum application temp.	10-30°C
In-use range once applied	-40°C to +150°C (Up to 180 during laser printing only).

Not suitable for food contact.

Backing
Kraft backing paper, matt-coated on reverse side with good lay-flatness & stability

Thickness	150 microns + or – 5 microns
Grammage	144 gsm + or – 5 gsm

Environmental
Paper components are either ECF or TCF grade manufactured using pulp from sustainable, managed resources. All dimensions are nominal target specifications but may vary. All products within our range are manufactured to ISO 9001:2015 and BRC standards, the factory is also PEFC and FSC certified. The raw material laminates are also made to the same ISO standards as above and to ISO 14001.

Markets and Uses
Another Tamper evident material if anyone attempts to remove this label it will break into very small pieces, cannot be removed in one piece, clearly showing the label has been tampered with.
Great for high value products including electronic equipment, perfumes, jewellery – Apply to the packaging not the goods themselves. **Electronics, High Value Gifts, Perfume Sales, Jewellery, Watches etc.**
